

Company Profile

At the outset we would like to introduce ourselves as a registered Company having a group of experienced Professionals with more than 15 Years' of service in various fields like Factory Compliance, Compliance as per ETI Base Code(Sedex), Business Social Compliance Initiative(BSCI), Social Accountability (SA8000), Environment Management System (ISO 140001), Occupational Health & Safety Management System (OHSAS 18001), Quality Management System (ISO9001), HR Solutions, & other IT Management solutions. Our group consists of professionalized people to setup an export oriented units by obtaining all legal documents and fulfilling all mandatory requirements.

We have intensively and closely worked with different factories / manufacturing units and helped them to successfully comply necessary Compliance related matters all over India. This helped the factories to build a strong business relationship with their customers. We are also associated with other group of auditors and consultants for different areas of Business Management Audits & Trainings.

Our specialization in terms of factory compliance dealt with the requirements of many leading stores, Brands and Retailers in US & Europe.

We provide the following services:-

- 1. Help factories to get Approval in terms of Social Compliance from their respective Buyers / Buying Agents/ Houses, Leading Stores & retailers in US & Europe.**
- 2. Arrange to get certification for BSCI, WRAP, & SA8000, ISO 14001, OHSAS 18001, ISO 9001 & Other Management systems.**
- 3. Internal Audits of Factory as per buyer's Social Accountability / SEDEX (ETI) Standards or as per Local & International Law.**
- 4. Identify non-compliance areas/issues as risk analysis, preparation of Employee Handbook, Safety manual, Social Manual, Standing Orders & help factory to handle other issue like Anti-Sexual Harassment Committee, Works Management Committee and Health & Safety Committee, Grievance Committee, Environmental Committee, Fire Safety Committee etc. & more.**

5. **Advise corrective measures as per the buyer's code of conduct.**
6. **Train factory management team, workers, contractors and sub-contractors on various requirements of Compliance.**
7. **Conduct gap analysis as per C-TPAT requirements, advise and prepare factories accordingly C-TPAT audits.**
